

FORMATIVE AGREEMENT

The subscription of the present Agreement implies the voluntary adhesion to Collegium Trinitatis's organizational and identity principles. We believe that the success of the formative path depends on a real collaboration between Collegium Trinitatis and the resident students.

The Formative Agreement does not merely refer to the respect of internal regulations, but it implies a real formative collaboration, where each part has to participate responsibly. Its aim is to be a map, guiding life at our residence and explaining what Collegium Trinitatis offers to its students, as well as which commitments they are requested to meet.

Since Collegium Trinitatis is not just a residential site, but offers formative and orientation services to enrich the academic career as well, we ask every guest to subscribe this meaningful alliance of shared responsibilities, so that all participants may have a mutual awareness of both roles and tasks.
